

Flow Boost

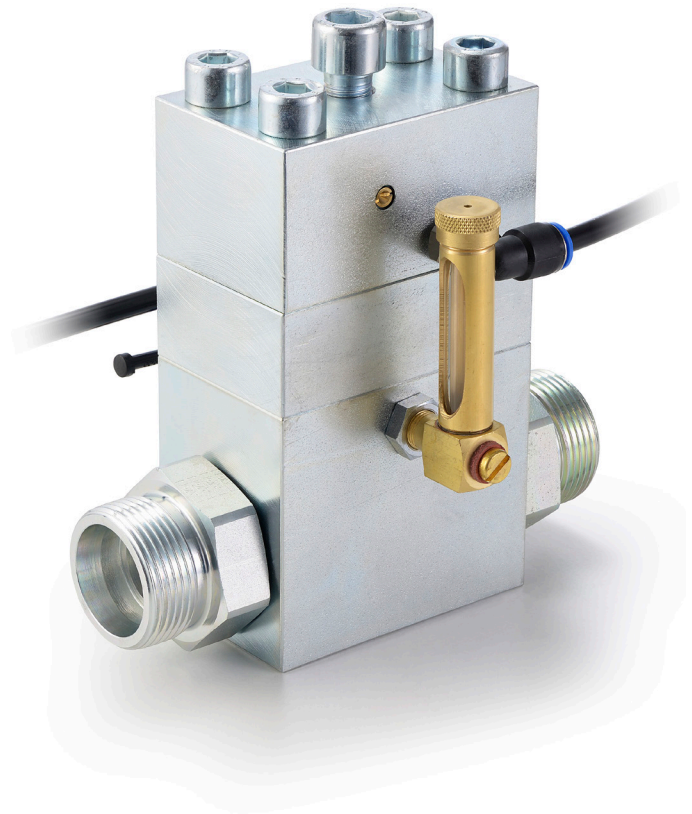

Up to 50% performance increase for your Visco Star-machinery*

MAXIMUM OUTPUT PERFORMANCE FOR ALL VISCO STAR 20/200 AND VISCO STAR PLUS AS RETROFIT KIT/OPTION**

The days are gone when you had to play it safe and limit the material pressure of your machine.

With Reinhardt-Technik's developed Flow Boost you take advantage of the full power of your Visco Star 20/200 or Visco Star Plus. This System helps to protect your hoses from excessive material pressure.

High operational reliability is secured also for processing of materials that harden by air humidity - thanks to the integration of a sealing agent level.

PERFECT MATCH WITH VISCO STAR

* Depends on material and production parameters

**For special versions of hose assemblies the applicability of Flow Boost should be checked

YOUR GLOBAL PARTNER IN **METERING AND MIXING TECHNOLOGY**

- Processing and application of single and multi component adhesive and sealants
- Ambient or temperature conditioned equipment
- Complete systems for manual or fully automatic processes
- Innovative process control and verification
